

Mode-AL design and manufacture 4 basic types of Plasma Stand that enable us to satisfy even the most demanding requirements for screen mounting. Our smallest in the range, is the Midi Stands (PK) which are suitable for single screen mounting up to 47" and ideal for offices, studios and areas where the small footprint of this stand is required. The next size up is our Plasma Stand Standard (PS). This is our most versatile range of stands; enabling a vast selection of single and multi screen configurations up to 2.0m/6'6" high. Our next range is the Die Cast Base (PD) and is a cost effective solution for mounting screens up to 50" or a combination of smaller screens to your requirements. Finally, our Mega Stands (PM) allow you to mount any combination from a single 70" screen up to 8x24" screens.

Additional components that can be added to any of the stands in all the ranges, are Glass or Trespa Shelves, Castors, Bolt Down Bases, Ceiling Mounts, Wall/Floor Mounting, 19" Racking Cabinets, CPU Enclosures, Speaker Mounts, Camera Mounts and any other accessories that you may require. We are always happy to custom design a stand to suit your needs.

As standard, our Plasma Stands are available at the heights as shown below, but we can design and manufacture to any height as required:

Stand Height	With Levelling Feet	With Castors
900mm	900mm / 2'11"	950mm / 3'2"
1200mm	1200mm / 3'11"	1250mm / 4'2"
1500mm	1500mm / 4'11"	1550mm / 5'2"
1800mm	1800mm / 5'11"	1850mm / 6'2"
2000mm	2000mm / 6'7"	2050mm / 6'10"

Shown below are typical examples of our 4 Standard types of Plasma Stand
