

Plasma Stand Equip

Introducing our new range of Plasma Stand Equip

Following the success of our original Plasma Stand Equip, we have worked with our customers to bring this revised version forward. Special features of the new Plasma Stand Equip include:

- The column has been removed from within the cabinet for improved access to the rear
- Improved ventilation with open chassis design and raised top shelf to allow for the free flow of hot air out of the cabinet
- Adjustable 19" rack mounts front and rear
- As standard in frosted or smoked finish glass shelves and acrylic sides.
- All of our standard accessories can be fitted to this unit including levelling feet for static installations
- No MDF is used in this unit
